Subject: M6H1 – Harvey Response RE: RM data
Date: Monday, September 4, 2017 2:56:30 PM

Yes EPA is developing the reports and the 14:30 report is overdue as well as the 09:30 report..

Confounding issues:

Sent a file to update about~ 250systems that did not have type codes

Sent a file to address the additional counties added in Governor's declaration.

The need to have a way to distinguish easily the subset FEMA declaration systems.

I know they have all the specifications of what TCEQ needs for data. I will forward this one as soon as it is in

Can you give me a distribution list so that EPA IMT has it and can forward it without me.

Regards

Subject: Re: RM data

From what I understand, EPA has taken over developing reports for Inop and BWN. I am attaching Andy on this email for clarification.

Subject: RM data

Melinda,

The snapshot in time data that you use to put together your 2:30-3PM report from RM can you please send that to Sean and Michele so they can make their map and review their BWN sheet?

Thanks,
Letty
